Lee – my recommendation is to move forward with this interim release. Each region has approved the release of the records specific to them. See MOTSU2018 below for example.

OW is working with a requester to clarify EPA FOIA # HQ-2017-011386. We agreed to send selected Regional examples of responses which will give the requestor a better sense of the type of information in the responsive documents and whether they need everything as requested. The records were shared via one drive due to the size of the file (MOTSU2018).

Lee and Sarah –

OW has two FOIA consultations from Army Corps of Engineers on Waters of the US. One FOIA is from the Center for Biological Diversity and the other FOIA is from Kevin Bogardus from E&E News. The two FOIA requests and responsive records for the Center for Biological Diversity are attached. The responsive records for the Kevin Bogardus FOIA were sent via one drive to the size of the file (EPA Consult Binder 2-18).

In addition, OW is working with a requester to clarify EPA FOIA # HQ-2017-011386. We agreed to send selected Regional examples of responses which will give the requestor a better sense of the type of information in the responsive documents and whether they need everything as requested. The records were shared via one drive due to the size of the file (MOTSU2018).

Please advise as to the status of review and release.
